SACHIN VIJAYAKUMAR

MOBILE APP DEVELOPER | ANDROID & iOS (FLUTTER)

Salem, Tamil Nadu | sachinvijayakumar05@gmail.com | 7806871177 | linkedin.com/in/sachinvijayakumar

PROFILE

Mobile App Developer with hands-on experience building cross-platform Android & iOS applications using Flutter and Dart. Comfortable across the full stack — front-end UI/UX, back-end integration with Firebase, and app deployment. Currently working as an intern on a real-time project, with a track record of delivering functional apps from concept to release.

TECHNICAL SKILLS

- Languages: Dart, Java, C (basic), HTML & CSS
- Mobile Development: Flutter (Android & iOS), UI/UX design, custom widgets, form validation, navigation, state management
- Back-End & Database: Firebase Firestore, Firebase Authentication, REST API integration
- Deployment: Android app build & release, Firebase Hosting/Config
- Tools & IDEs: Android Studio, Visual Studio Code, Git (basic), Figma, AI Tools

INTERNSHIP EXPERIENCE

Future Focus Learning Hub — Flutter Developer 2025

- Developed and maintained mobile app features using Flutter and Dart, enhancing UI performance and user experience.
- Integrated Firebase for secure authentication and real-time data handling.
- Supported testing and debugging efforts, reducing crashes and bugs.

Dev Technology — Java Full Stack Development 2024

- Gained hands-on experience in Java, focusing on OOP, exceptions, and collections.
- Explored back-end development with Spring Boot and REST APIs, along with the basics of HTML, CSS, and JavaScript.

EMGlitz Technologies — Web Development 2023

- Crafted user-friendly, mobile-responsive web pages using HTML and CSS.
- Applied best practices in layout, positioning, and styling across screen sizes.

PROJECTS

RooMance – Room Booking App (Flutter)

Built a room booking mobile app with a modern, responsive UI featuring animations, image carousels, and smooth page transitions. Integrated Firebase Authentication and a real-time database to manage user login and booking data securely — demonstrating end-to-end mobile app development and real-time data integration.

IoT-Based Weight Overload Indicator

Developed a smart IoT-based solution for real-time vehicle load monitoring that automatically detects overloads and sends instant alerts, supporting regulatory compliance, road safety, and reduced maintenance costs.
